**Postmodern Education**-Stanley Aronowitz
Incorporating post-modernism, cultural studies and literary theory, Aronowitz and Giroux argue that new theoretical formulations are necessary to analyze and transform educational institutions within the context of a post-modern world. In a world that is rapidly redefining relations between the centre and the margins and questioning the legitimacy of master narratives, this book discusses why it is no longer possible either to defend or analyze educational institutions according to conservative, liberal or radical theories dominated by a modernist faith in reason, science, universal truths and Euro-centric culture. The authors aim to provide an informed analysis of today's polemics surrounding the topic of education and society, and to present a conceptual framework for charting the future of directions educational theory and practice.
Postmodernism, Feminism, and Cultural Politics
Henry A. Giroux 1991-01-22
This book introduces central assumptions that govern postmodern and feminist theory, offering educators a language to create new ways of conceiving pedagogy and its relationship to social, cultural, and intellectual life. It challenges some of the major categories and practices that have dominated educational theory and practice in the United States and in other countries since the beginning of the twentieth century. Rejecting the apolitical nature of some postmodern discourses and the separatism characteristic of some versions of cultural feminism, the contributors take a political stand rooted in concern with cultural and social justice. In so doing, these essays represent a linguistic shift regarding how we think about ethics, foundationalism, difference, and culture. The selections present a concern with developing a language that is critical of master narratives, racism, sexism, and those technologies of power in schools that subjugate, infantilize, and oppress students. The authors also develop a language of possibility that focuses on analyzing how power can be linked productively to knowledge, how teachers can construct classroom social relations based on notions of equity and justice, how critical pedagogy can contribute to an identity politics that is grounded in democratic relations, and how teachers can develop analyses that enable students to become self-reflective actors as they transform themselves and the conditions of their social existence.

After Postmodernism
Richard Smith
2005-09-27
This work presents a set of thematic essays aimed at clarifying the educational problems and paradoxes of postmodern educational conditions and theory. The major concerns of the book are the possibility of achieving substantive political objectives and of theorising such possibilities. These concerns arise from a dissatisfaction with the organisational and political conditions of postmodern educational practice.; The seeming inability of academics to intervene in the public sector, especially in matters of equality, provides a driving force to the book. For individuals who care about the future of education and its role in social reconstruction, the pessimistic nature of postmodern theories of society and education is an additional impetus for the book.; All the chapters exemplify the issues that confront lecturers in contemporary university teacher education contexts. A notable feature of the book is a theme that current theorisation about education and society are historically outmoded and that the future lies in "post" postmodern theories.

Postmodernism And The Politics Of 'Culture'
Adam Katz 2018-03-05
Postmodernism and the Politics of 'Culture' is a comparative critical analysis of the political and intellectual ambitions of postmodernist critical theory and the academic discipline of cultural studies. Katz's polemical aim is to show that cultural studies comes up short in both areas, because its practitioners focus on too-narrow issues—primarily, celebrating the folkways of micro-communities—while denying the very possibility of studying, understanding, and changing society in any comprehensive way and to any universally beneficial purpose. He argues that scholars and activists alike would do well to make use of the analytical tools of postmodernist critical theory, whose practitioners acknowledge the political significance of the differences between social groups, but do not consider them to be unbridgeable, and so seek to develop a set of practices for creating a truly inclusive, truly democratic public sphere.

Critical Pedagogy and Predatory Culture
Peter McLaren 2002-03-11
This book is a principled, accessible and highly stimulating discussion of a politics of resistance for today. Ranging widely over issues of identity, representation, culture and schooling, it will be required reading for students of radical pedagogy, sociology and political science.

Postmodernism and Public Policy
John B.
Cobb 2002-01-01 Develops a naturalistic postmodern perspective to make constructive proposals about a wide range of topics now in public discussion.

The Politics of Postmodernity: John R Gibbins 1999-05-12 What happens to politics in the postmodern condition? The Politics of Postmodernity is a political tour de force that addresses this key contemporary question. Politics in postmodernity is carefully contextualized by relating its specific sphere - the polity - to those of the economic, social, technological and cultural. The authors confront globalization and the notion of postmodernity as disorganized capitalism. They analyze the role of the mass media, the changing ways in which politics is used, the role of the state and the progressive potential of politics in postmodern times. Closing with a postscript on the future of the discipline of political science, this book offers a profound yet highly accessible account of how politics is undergoing a shift from the modern to the postmodern.

Scenes from Postmodern Life: Beatriz Sarlo 2001 In this bracing book, Beatriz Sarlo offers a remarkably clear, forthright, and forceful statement of what precisely cultural criticism is and might be in our age of manic consumption, commercialization, popularization, and mass marketing.

New Media, Cultural Studies, and Critical Theory after Postmodernism: R. Samuels 2009-12-07 This book argues that we have moved into a new cultural period, automodernity, which represents a social, psychological, and technological reaction to postmodernity. In fact, by showing how individual autonomy is now being generated through technological and cultural automation, Samuels posits that we must rethink modernity and postmodernity.

Postmodern Theory: Steven Best 1991-01-01 In this timely volume, the authors systematically analyze postmodern theory to evaluate its relevance for critical social theory and radical politics today. Best and Kellner provide: * An introduction and critique of the work of Foucault, Deleuze and Guattari, Baudrillard, Lyotard, Laclau and Mouffe, and Jameson, which assess the varying contributions and limitations of postmodern theory * A discussion of postmodern feminist theory and the politics of identity * A systematic study of the origin of the discourse of the postmodern in historical, sociological, cultural, and philosophical studies. The authors claim that while postmodern theory provides insights into contemporary developments, it lacks adequate methodological and political perspectives to provide a critical social theory and radical politics for the present age.

Difference Troubles: Steven Seidman 1997-10-09 Major work in social theory by leading scholar concerned with topics of ‘difference’: gender, race, sexuality.

Negotiating Postmodernism: Wayne Gabardi 2001 Joining the modern-postmodern debate, this book suggests that the polarizing polemics of the radical postmodernists who once dominated the discussion have given way to a new critical postmodernism characterized by dialogue, accommodation, and synthesis. A comprehensive survey, Negotiating Postmodernism also marks the arrival of a powerful, critical presence on the scene, one that advances the idea of a late modern-postmodern social and cultural transition.

The Oxford Handbook of Philosophy of Education: Harvey Siegel 2009-11-12 A general introduction to key issues in the philosophy of education. The chapters are accessible to readers with no prior exposure to philosophy of education, and provide both surveys of the general domain they address, and advance the discussion in those domains.

What Comes After Postmodernism in Educational Theory?: Michael A. Peters 2020-06-30 Marking the fiftieth anniversary of the Educational Philosophy and Theory journal, this book brings together the work of over 200 international scholars, who seek to address the question: ‘What happened to postmodernism in educational theory after its alleged demise?’. Declarations of the death knell of postmodernism are now quite commonplace. Scholars in various disciplines have suggested that, if anything, postmodernism is at an end and has been dead and buried for some time. An age dominated by
playfulness, hybridity, relativism and the fragmentary self has given way to something else—as yet undefined. The lifecycle of postmodernism started with Derrida’s 1966 seminal paper ‘Structure, Sign and Play in the Discourse of the Human Sciences’; its peak years were 1973–1989; followed by uncertainty and reorientation in the 1990s; and the aftermath and beyond (McHale, 2015). What happened after 2001? This collection provides responses by over 200 scholars to this question who also focus on what comes after postmodernism in educational theory. This book was originally published as a special issue of the journal Educational Philosophy and Theory.

Critical Literacy—Maxine Greene 1993-03-18 Illustrates the differences and similarities between modernist and postmodernist theories of literacy, and suggests how the best elements of both can be fused to provide a more rigorous conception of literacy that will bring theoretical, ethical, political, and practical benefits. Some of the 14 essays are theoretical, other present case studies of literacy programs for adults and other applications. Annotation copyright by Book News, Inc., Portland, OR

Reclaiming Identity—Paula M. L. Moya 2000-12-14 Ten essays offer a "postpositivist realist" approach to identity, arguing that identity has real political and epistemic consequences for how people experience the world and their place in society.

Growing Up Postmodern—Ronald Strickland 2002 The highly anticipated complete novel of The Professional—the first installment in #1 New York Times bestselling author Kresley Cole’s scorching Game Maker series, an erotica collection that has readers asking: How hot is too hot? He makes the rules... Mafiya enforcer Aleksei “The Siberian” Sevastyan’s loyalty to his boss knows no bounds, until he meets the boss’s long-lost daughter, a curvy, feisty redhead who haunts his mind and heats his blood like no other. Ordered to protect her, Aleksei will do anything to possess her as well—on his own wicked terms. Rules are made to be broken... Grad student Natalie Phillips had barely recovered from her first sight of the dark and breathtaking Sevastyan before the professional enforcer whisks her away to Russia, thrusting her into a world of extreme wealth and wanton pleasures. Every day under his protection leads her deeper under his masterful spell. Are you ready to play? Yet all is not as it seems. To remove Natalie from an enemy’s reach, Sevastyan spirits her into hiding. From an opulent palace in Russia to the decadent playgrounds of the mega-wealthy in Paris, the two lovers will discover that even their darkest—and most forbidden—fantasies can come true...

Postmodernism and Education—Richard Edwards 2002-11-01 In this book, the authors explore and clarify the nature of postmodernism and provide a detailed introduction to key writers in the field such as Lacan Derrida Foucault Lyotard They examine the impact of this thinking upon contemporary theory and practice of education, concentrating particularly upon how postmodernist ideas challenge existing concepts, structures and hierarchies.

Postmodern Theory and Progressive Politics—Thomas de Zengotita 2018-08-23 This book explores the origins of the academic culture wars of the late 20th century and examines their lasting influence on the humanities and progressive politics. It puts us in a position to ask this question: what to make now of those furious debates over postmodernism, multiculturalism, relativism, critical theory, deconstruction, post-structuralism, and all the rest? In an effort to arrive at a fair judgment on that question, the book reaches for an understanding of postmodern theorists by way of two genres they despised and hopes, for that very reason, to do them justice. It tells a story, and in the telling, advances two basic claims: first, that the phenomenological/hermeneutical tradition is the
most suitable source of theory for a humanism that aspires to be universal; and, second, that the ethical and political aspect of the human condition is authentically accessible only through narrative. In conclusion, it argues that the postmodern moment was a necessary one, or will have been if we rise to the occasion and seize the opportunity it offers: a truly universal humanism might yet be realized even in—or perhaps especially in—this atavistic hour of parochial populism.

The 'Postmodern Turn' in the Social Sciences-Simon Susen 2015-07-23 Simon Susen examines the impact of the 'postmodern turn' on the contemporary social sciences. On the basis of an innovative five-dimensional approach, this study provides a systematic, comprehensive, and critical account of the legacy of the 'postmodern turn', notably in terms of its continuing relevance in the twenty-first century.

On Critical Pedagogy-Henry A. Giroux 2020-03-19 Alongside Paulo Freire, Henry A. Giroux is widely considered to be the founding father of critical pedagogy. This classic work represents his best writing on critical pedagogy spanning the past 40 years. The 2nd edition includes four new chapters covering the rise of fascist culture in America and across the globe and the dictatorship of ignorance in the age of Trump and post-truth. This impassioned work opens by discussing critical pedagogy in schools before extending the notion to the educational force of culture, politics, and society. Giroux analyses the increasingly empirical orientation of teaching, focusing on the culture of positivism and examines some of the major economic, social, and political forces undermining the promise of democratic schooling in both public and higher education. He argues against the tendency by both right wing and neo-liberal interests to reduce schooling to training, and students merely to customers. He points to the increasing attack on pubic and higher education by right-wing populists and the Trump administration in an age of growing authoritarianism. Giroux also considers the legacy of Freire and issues a fundamental challenge to educators, public intellectuals, and others who believe in the promise of radical democracy.

Freire, Teaching, and Learning-Marina Souto-Manning 2010 In this book, Paulo Freire's culture circles cross linguistic, cultural, and socioeconomic borders to work across contexts in the U.S. (early education, pre-service and in-service teacher education) and in Brazil (adult education). Freire, Teaching, and Learning makes culture circles accessible to those seeking to embrace equity and democracy through everyday educational practices.

Postmodernism and Popular Culture-Angela McRobbie 2003-09-02 Postmodernism and Popular Culture brings together eleven recent essays by Angela McRobbie in a collection which deals with the issues which have dominated cultural studies over the last ten years. A key theme is the notion of postmodernity as a space for social change and political potential. McRobbie explores everyday life as a site of immense social and psychic complexity to which she argues that cultural studies scholars must return through ethnic and empirical work; the sound of living voices and spoken language. She also argues for feminists working in the field to continue to question the place and meaning of feminist theory in a postmodern society. In addition, she examines the new youth cultures as images of social change and signs of profound social transformation. Bringing together complex ideas about cultural studies today in a lively and accessible format, Angela McRobbie's new collection will be of immense value to all teachers and students of the subject.

The Postmodern Turn-Steven Seidman 1994-11-25 This book collects the most important statements of the postmodern theory, including the classics essays of authors such as Lyotard, Haraway, Foucault, and Rorty.

Identity Crises-Robert G. Dunn 1998 Significant to Dunn's critique of poststructuralist and postmodern theories is his application of George Herbert Mead as a means of theorizing identity and difference. The focus on postmodernity, rather than postmodernism grounds his analysis of identity and difference both materially and socially.

Postmodernism And Society-Roy Boyne 2017-03-01 Neither a manifesto nor a one-sided
critique, this new book introduces a number of original essays exploring various aspects of that contemporary cultural phenomenon named postmodernism. These essays are prefaced by an introductory essay which sets out the major lines of a debate which is about nothing less than the current shape and future prospects of our society.

**Images of Postmodern Society**-Norman K K Denzin 1991-08-27 By using a series of studies of contemporary mainstream Hollywood movies - "Blue Velvet, Wall Street, Crimes and Misdemeanors, When Harry Met Sally, Sex Lies and Videotape, Do the Right Thing" - Norman Denzin explores the tension between ideas of the postmodern, and traditional ways of analyzing society. The discussion moves between two forms of text: social theory and cinematic representations of contemporary life. Denzin analyzes the ideas of society embedded in poststructuralism, postmodernism, feminism, cultural studies and Marxism through the ideas of key theorists like Baudrillard, Barthes, Habermas, Jameson, Bourdieu and Derrida. He relates these to the problematic of the postmodern self as exposed in cinema centering on the decisive performance of race, gender and class.

**Postmodernism is Not What You Think**-Charles C. Lemert 2015-12-03 'Charles Lemert is one of the most thoughtful and interesting of sociology's postmodernists. He recurrently finds new angles of vision and is especially helpful for overcoming the pernicious opposition of 'micro' and 'macro' perspectives.' -Craig Calhoun, New York University (on the first edition) Highly readable, the second edition of Postmodernism Is Not What You Think responds to the widespread claim that postmodernism is over. It explains the historical connections between the postmodern and globalization. Those who wish to kill the term postmodernism still must face the facts that the former nationalistic world-system has collapsed and is slowly being replaced by a more global set of structures. The book is completely revised and updated with an entirely new section on globalization. The media and popular culture, identity politics, the science wars, politics and cultural studies, structuralism and poststructuralism, and the new sociologies are also put in perspective as signs of the new social formations dawning at the end of the modern age. Lemert shows that the postmodern is less a theory than a condition of social life brought about by the trouble modernity has gotten itself into.

**Art Education in a Postmodern World**-Tom Hardy 2006-07-01 Many of the essays pinpoint the stagnancy of teaching methods today and discuss the reductive parameters enforced by the current curriculum. The radical tone that echoes through the entire series of papers is unmistakable. Throughout the book, postmodern theory informs the polemical debate concerning new directions in educative practice. Contributors shed new light on a postmodern view of art in education with emphasis upon difference, plurality and independence of mind. Ultimately, the paper provides a detailed insight into the various concepts that shape and drive the contemporary art world and expands the debate regarding the impression of postmodern thinking in art education.

**Postmodernism, Or, The Cultural Logic of Late Capitalism**-Fredric Jameson 1991 Proceedings of a symposium, held as a satellite meeting of the Second World Congress of Neuroscience, at the University of Bremen in August 1987. An overview of lesion-induced neural plasticity in such areas as the spinal cord; vertibular, oculomotor, visual, and olfactory systems; the cerebellum; and the cerebral cortex. Many diagrams, charts, and illustrations. Some implications for the general understanding of neural plasticity are discussed. The title essay was published in 1984 in New Left Review, and a number of the other essays presented here also appeared in previous publications, sometimes in an earlier form. Jameson (comparative literature, Duke.) evaluates the concept of postmodernism and surveys developments in a wide range of fields--market ideology, architecture, painting, installment art, film, video art, literature. **The Postmodern Condition**-Jean-François Lyotard 1984 In this book it explores science and
technology, makes connections between these epistemic, cultural, and political trends, and develops profound insights into the nature of our postmodernity.

**Not Yet**- Jamie Owen Daniel 1997 The essays gathered here recommend the work of Ernest Bloch as a challenge to older models of historical materialism and utopian emancipation and give specific examples of how Bloch's work can contribute to current debates about utopia, nationalism, collective memory, and the complex relationship between ideology and everyday life.

**Theories of Culture in Postmodern Times**- Marvin Harris 1999 In this book, Marvin Harris presents his current views on the nature of culture addressing such issues as the mental/behavioral debate, emics and etics, and anthropological holism.

**Advertising in Modern and Postmodern Times**- Pamela Odih 2007-04-30 How does advertising position itself in consumer culture? In what ways does it 'create' desire and wants? Advertising in Modern and Postmodern Times: provides a comprehensive discussion of the main theories shows you how real adverts work, together with reproductions of advertising images and copy demonstrates how advertising constructs subjects provides an instructive historical overview of advertising explores the relationship between advertising and industrial capitalism.

**The Rise of Post-Modern Conservatism**- Matthew McManus 2019-08-29 This book is designed as a timely analysis of the rise of post-modern conservatism in many Western countries across the globe. It provides a theoretical overview of post-modernism, why post-modern conservatism emerged, what distinguishes it from other variants of conservatism and differing political doctrines, and how post-modern conservatism governs in practice. First developing a unique genealogy of conservative thought, arguing that the historicist and irrationalist strains of conservatism were ripe for mutation into post-modern form under the right social and cultural conditions, then providing a new unique theoretical framework to describe the conditions for the emergence of post-modern conservatism, The Rise of Post-modern Conservatism applies its theoretical framework to a concrete analysis of the politics of the day. Ultimately, it aims to help us understand the emergence and rise of identity oriented alt right movements and their “populist” spokesmen particularly in the United States, the United Kingdom, Hungary, Poland, and now Italy.
