Critical Thinking in Nursing - Rosalinda Alfers-LaFever 1999 Updated and revised, the second edition of this unique and popular text promotes the critical thinking and professional skills needed to face the challenges of today's rapidly changing health care system. Readers learn both skills and theory in a manner that is practical and easy to read. A completely new chapter provides clinical guidelines for managing the workplace skills suggested by National Educational Goals 2000. And, a wealth of examples, analogies, case studies, and practice sessions provide readers with a truly interactive experience. This practice scenario illustrates "real-world" challenges such as communicating bad news, working in teams, managing conflict, and satisfying customers.

Nursing Diagnosis Manual - Marilyn E. Dossey 2008 You can rely on this complete reference to identify interventions commonly associated with specific nursing diagnoses across the client's life span, and to help plan, individualize, and document client care. Using the standard nursing language of NANDA, NIC, and NOC, this manual's listing of diagnoses follows NANDA's own sequencing - alphabetized by key term; prioritizes interventions; and covers almost 900 disorders and health conditions with associated diagnoses. It covers the newest diagnoses by NANDA: more diagnoses and almost 100 disorders and conditions; all diagnosis listings follow NANDA's own sequencing; outcomes that include Client Will (Include Specific Time Frame) statements in Nursing documentation focus provided at the end of every diagnosis; Spotlights Concept Mapping for creating and documenting care to enhance critical thinking skills when planning client care; and, interventions that are prioritized, with helpful icons indicating specialized interventions. It features a free Pocket Minder with a complete listing of nursing diagnoses, with page references to the book.
