The I Ching or Book of Changes-Hellmut Wilhelm
2011-01-02 The I Ching, or Book of Changes, a common source for both Confucianist and Taoist philosophy, is one of the first efforts of the human mind to place itself within the universe. It has exerted a living influence in China for 3,000 years, and interest in it has been rapidly spreading in the West.

I Ching-Thomas F. Cleary
2006 This pocket-sized translation of the great Chinese classic includes commentary by Confucius and instructions for consulting the I Ching.
Understanding the I Ching - Hellmut Wilhelm 1995
The West's foremost translator of the I Ching, Richard Wilhelm thought deeply about how contemporary readers could benefit from this ancient work and its perennially valid insights into change and chance. For him and for his son, Hellmut Wilhelm, the Book of Changes represented not just a mysterious book of oracles or a notable source of the Taoist and Confucian philosophies. In their hands, it emerges, as it did for C. G. Jung, as a vital key to humanity's age-old collective unconscious. Here the observations of the Wilhelms are combined in a volume that will reward specialists and aficionados with its treatment of historical context—and that will serve also as an introduction to the I Ching and the meaning of its famous hexagrams. -- "Religious Studies Review"

I Ching - David Hinton
2015-10-13 A master translator's beautiful and accessible rendering of the seminal Chinese text In a radically new translation and interpretation of the I Ching, David Hinton strips this ancient Chinese masterwork of the usual apparatus and discovers a deeply poetic and philosophical text. Teasing out an elegant vision of the

The Pocket I Ching - Thomas Cleary 2006-09-12
The I Ching (Book of Change) is considered the oldest of the Chinese classics, and has throughout Chinese history commanded unsurpassed prestige and popularity. Containing several layers of text and given numerous levels of interpretation, the I Ching has been venerated for more than three thousand years as an oracle of fortune, a guide to success, and a source of wisdom. The underlying theme of the text is change, and how this fundamental force influences all aspects of life—from business and politics to personal relationships. This translation of the I Ching draws on ancient Confucian commentary, which emphasizes applying practical wisdom in everyday affairs.
cosmos as ever-changing yet harmonious, Hinton reveals the seed from which Chinese philosophy, poetry, and painting grew. Although it was and is widely used for divination, the I Ching is also a book of poetic philosophy, deeply valued by artists and intellectuals, and Hinton's translation restores it to its original lyrical form. Previous translations have rendered the I Ching as a divination text full of arcane language and extensive commentary. Though informative, these versions rarely hint at the work's philosophical heart, let alone its literary beauty. Here, Hinton translates only the original strata of the text, revealing a fully formed work of literature in its own right. The result is full of wild imagery, fables, aphorisms, and stories. Acclaimed for the eloquence of his many translations of ancient Chinese poetry and philosophy, Hinton has reinvented the I Ching as an exciting contemporary text at once primal and postmodern.

Teaching the I Ching (Book of Changes)-Geoffrey P. Redmond 2014 Teaching the I Ching (Book of Changes) is a comprehensive and authoritative source for understanding the 3,000-year-old Book of Changes, arguably the most influential Chinese classical text. Beginning in the 1960s, as a result of the renewed interest in Asian philosophy and the availability of a readable English translation, the I Ching (Pinyin Yijing) became a countercultural classic and attracted scholarly interest as well. In China, the Yijing was alternately condemned and praised during the Mao era - though the Great Helmsman was rumored to consult the Changes himself. It is now widely read in China, and scholarship on the Changes has blossomed both in China and the West, stimulated by advances in reconstructing the ancient Chinese language and by the recent discovery of previously lost versions of the text. Chinese traditional culture cannot be understood without some familiarity with the Yijing, but it is one of the most difficult of the world's ancient classics. The text is fragmentary with many obscure allusions and
conflicting interpretive traditions spanning more than two thousand years. The associated diagrams have complex interpretative schemes. Geoffrey Redmond and Tze-Ki Hon provide the necessary background for teachers at the university level to cover the Yijing even if they are not specialists. This book also serves as an introduction for students beginning the study of the Changes and presents an up-to-date survey of recent scholarship.

The I Ching - Neil Powell
2019-07-02 The I Ching is an ancient Chinese work of divination that examines the patterns, or hexagrams, traditionally formed by dropping bundles of dried grass stalks. This edition features interpretations of the 64 hexagrams, including the Judgment, written by King Wen in the 12th Century BCE; The Commentary and The Image (both attributed to Confucius); and The Lines, written by King Wen's son, and here enhanced by modern commentary.

The I Ching (Book of Changes) - Geoffrey Redmond
2017-07-13 The I Ching has influenced thinkers and artists throughout the history of Chinese philosophy. This new, accessible translation of the entire early text brings to life the hidden meanings and importance of China's oldest classical texts. Complemented throughout by insightful commentaries, the I Ching: A Critical Translation of the Ancient Text simplifies the unique system of hexagrams lying at the centre of the text and introduces the cultural significance of key themes including yin and yang, gender and ethics. As well as depicting all possible ethical situations, this new translation shows how the hexagram figures can represent social relationships and how the order of lines can be seen as a natural metaphor for higher or lower social rank. Introduced by Hon Tze-Ki, an esteemed scholar of the text, this up-to-date translation uncovers and explains both the philosophical and political interpretations of the text. For a better understanding of the
philosophical and cosmological underpinning the history of Chinese philosophy, the I Ching is an invaluable starting point.

I Ching, Or, Book of Changes—Richard Wilhelm
1989 Jessica Hart has never forgotten Matthew Landley. After all, he was her first love when she was fifteen years old. But he was also her school maths teacher, and their forbidden affair ended in scandal with his arrest and imprisonment. Now, seventeen years later, Matthew returns with a new identity, a long-term girlfriend and a young daughter, who know nothing of what happened before. Yet when he runs into Jessica, neither of them can ignore the emotional ties that bind them together. With so many secrets to keep hidden, how long can Jessica and Matthew avoid the dark mistakes of their past imploding in the present?

Original I Ching—Margaret J. Pearson 2012-02-07 First

among the ancient classics, the I Ching or Book of Changes is one of the world's most influential books, comparable to the Bible, the Koran, and the Upanishads. The I Ching's purpose is universal: to provide good counsel to its users in making decisions during times of change. Since its origins about 3,000 years ago, it has become a compendium of wisdom used by people of many cultures and eras. This groundbreaking new translation by Dr. Margaret Pearson is based on the text created during the first centuries of the Zhou Dynasty, study of documents showing how it was used in the dynasty, and on current archaeological research findings. Her translation removes centuries of encrusted inaccuracies to better reveal the I Ching's core truths for today's readers. Whether you are interested in trying this millennia-tested method of making wise choices or in understanding the world view of the early Chinese, this edition is essential reading.
I Ching, Or, The Book of Changes-James Legge 1962

The Sacred Books of China-1891

The Book of Changes and the Unchanging Truth-Hua Ching Ni 1995 You will appreciate discovering the inexhaustible source for continued study, reflection and self-cultivation which Master Ni’s lucid rendition of this timeless wisdom provides.

The Classic of Changes-2004-03-31 Used in China as a book of divination and source of wisdom for more than three thousand years, the I Ching has been taken up by millions of English-language speakers in the nineteenth century. The first translation ever to appear in English that includes one of the major Chinese philosophical commentaries, the Columbia I Ching presents the classic book of changes for the world today. Richard Lynn's introduction to this new translation explains the organization of The Classic of Changes through the history of its various parts, and describes how the text was and still is used as a manual of divination with both the stalk and coin methods. For the fortune-telling novice, he provides a chart of trigrams and hexagrams; an index of terms, names, and concepts; and a glossary and bibliography. Lynn presents for the first time in English the fascinating commentary on the I Ching written by Wang Bi (226-249), who was the main interpreter of the work for some seven hundred years. Wang Bi interpreted the I Ching as a book of moral and political wisdom, arguing that the text should not be read literally, but rather as an expression of abstract ideas. Lynn places Wang Bi’s commentary in historical context.

The Complete I Ching — 10th Anniversary Edition- Taoist Master Alfred Huang 2010-11-17 A revised edition of the definitive translation of the world’s most important book of divination • More than 64,000 copies sold of the
translations of each hexagram name, description, and pictogram; and discussions of the interrelations between the hexagrams and the spiritual meaning of their sequence.

**The Original I Ching Oracle** - 2007 This remarkable work is the final result of 50 years of I Ching research and over 10 years of roundtables and seminars. Based on a revolutionary translation method, and inspired by Carl Jung’s insights into the psyche, The Original I Ching Oracle offers Western readers the closest possible approach to the true content of the ancient Chinese oracle. By cutting through layers of philosophical analysis and recovering the original images of the I Ching, it puts readers in contact with a deep universal dimension of the human psyche, as important today as it was for the shamans in China over 3,000 years ago.

**Book of Changes - The Original Core of the I Ching** - Lars Bo Christensen
The Book of Changes has always been regarded as one of the most important, but also most enigmatic, Chinese classics. Lars Bo Christensen's coherent and meaningful translation of the original core - the divination manual - can be read by anyone and is supported by extensive evidence and a complete glossary.

The Laws of Change-J. M. Balkin 2002 An in-depth introduction to the mysteries of the I Ching describes the history, philosophy, interpretation, and practical applications of the ancient text and provides a definitive new translation of the text that includes sixty-four chapters based on the six-line figures around which the Book of Changes is organized. 15,000 first printing.

I Ching-James Legge 2019-08-14 I Ching was among "the five classics" edited by Confucius, and the philosopher is reputed to have wished for fifty more years of life to study it. The Book of Changes, as it is known in the Western world, dates back to before 1,000 B.C. and ranks among the most important works in the history of Chinese culture. The ancient text has provided inspiration to countless spiritual seekers of many persuasions. One of the few divination manuals to survive into modern times, I Ching is of enormous significance to the history of religions and philosophy. Its profound influence extends to the worlds of business, psychoanalysis, literature, and art. This volume is the standard English translation by the great Sinologist James Legge, prepared for the series Sacred Books of the East. It contains the basic text attributed to King Wan and his son, the Duke of Chou, Appendixes usually ascribed to Confucius, an informative Preface by Legge, and extensive footnotes.

The Little Book of Changes-Peter Crisp 2012-02 "The Little Book of Changes" is a fresh interpretation of the "I Ching," one of the oldest books in the world-recognized by both Confucians and
Taoists as a fundamental work. Author Peter Crisp's perceptive and poetic rendition reimagines the ancient philosophical text as a friendly, accessible, and modern companion. The sixty-four readings in the "The Little Book of Changes" are oracular insights that offer suggestions on how to respond to life's challenges and opportunities. Set against our ever-changing circumstances, this helpful guide is here to remind us of life's constants. Think of it as a friend to consult with when you have things to discuss and decisions to make. Using tried-and-true, easy-to-follow methods involving flipping three coins six times, you will be led to thought-provoking responses to any questions you may have.

I Ching - 2001 This is an ancient Chinese divination manual and book of wisdom. Its rich poetic text and effectiveness has gained it a large following in the West.

Lectures on the I Ching - Richard Wilhelm 2014-07-14

Wilhelm frequently wrote and lectured on the Book of Changes, supplying guidelines to its ideas and ways of thinking. Collected here are four lectures he gave between 1926 and 1929. The lectures are significant not only for what they reveal about Chinese tradition and culture, but also for their reflections of the scholarly and cultural milieu prevalent in Germany during that time. Originally published in 1979. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The I Ching - Richard J. Smith
2012-03-25 How the I Ching became one of the most widely read and influential books in the world
The I Ching originated in China as a divination manual more than three thousand years ago. In 136 BCE the emperor declared it a Confucian classic, and in the centuries that followed, this work had a profound influence on the philosophy, religion, art, literature, politics, science, technology, and medicine of various cultures throughout East Asia. Jesuit missionaries brought knowledge of the I Ching to Europe in the seventeenth century, and the American counterculture embraced it in the 1960s.

Here Richard Smith tells the extraordinary story of how this cryptic and once obscure book became one of the most widely read and extensively analyzed texts in all of world literature. In this concise history, Smith traces the evolution of the I Ching in China and throughout the world, explaining its complex structure, its manifold uses in different cultures, and its enduring appeal. He shows how the indigenous beliefs and customs of Japan, Korea, Vietnam, and Tibet "domesticated" the text, and he reflects on whether this Chinese classic can be compared to religious books such as the Bible or the Qur'an. Smith also looks at how the I Ching came to be published in dozens of languages, providing insight and inspiration to millions worldwide—including ardent admirers in the West such as Leibniz, Carl Jung, Philip K. Dick, Allen Ginsberg, Hermann Hesse, Bob Dylan, Jorge Luis Borges, and I. M. Pei. Smith offers an unparalleled biography of the most revered book in China's entire cultural tradition, and he shows us how this enigmatic ancient classic has become a truly global phenomenon.

Secrets of the I Ching
Joseph Murphy 1999-12-01
The classic guide to tapping the practical benefits of an age-old book of wisdom--revised to captivate today's spiritual seekers
Based on the revered Chinese philosophy with a 5,000-year-old tradition, the I Ching, or Book of Changes, is rich in
revelations. An eminent expert on the powers of the subconscious, Dr. Joseph Murphy opens the guiding force of this ancient text to anyone with an appreciation of the possibilities. With the help of three coins--ordinary pennies will do--readers will learn to apply their intuitive abilities to receive the I Ching's answers. With a practical outlook, this hands-on guide presents simple techniques for enlisting the I Ching's aid in everyday problem-solving and decision-making. Murphy explains the I Ching hexagram system, revealing its roots in human psychology and the principle of constant change. Demystifying obscure terms and symbols, the author leads the way to consulting the I Ching for clarity and guidance in times of confusion and crisis. By combining basic mathematical formulas with spiritual awareness, readers will realize the miracle-working potential of their own mind and connect with the I Ching's truths. As a result, they'll gain vital insights into questions about career, family, romance, financial security, and life goals. And they'll discover the wonder of genuine peace of mind.

SECRETS OF THE I CHING, does not claim to predict the future. But it does provide the tools to mark any future with the promise of greater personal and spiritual fulfillment.

The I Ching Workbook-R. L. Wing 1979 The 5,000-year-old Chinese book of wisdom, presented in a unique workbook format designed to help truth-seekers find new meaning and enlightenment in its ancient lore.

The Elemental Changes-Hsiung Yang 1994-01-27 Composed in 2 B.C., as "The I Ching revised and enlarged," The Elemental Changes is a divination manual providing a clear method for distinguishing alternative courses of action. Structured in 81 tetragrams (as opposed to the 64 hexagrams of the I Ching), the book offers much to the modern reader. Today in the West, The Elemental Changes is an essential tool for understanding the Tao as it operates in the Cosmos, in
the minds of sages, and in sacred texts. It is also one of the great philosophical poems in world literature, assessing the rival claims on human attention of fame, physical immortality, wealth, and power while it situates human endeavor within the larger framework of cosmic energies. The complete text of The Elemental Changes and its ten autocomentaries are here translated into accessible and, whenever possible, literal English. Following the Chinese tradition, supplementary comments are appended to each tetragram in order to indicate the main lines of interpretation suggested by earlier commentators.

Sung Dynasty Uses of the I Ching
Kidder Smith Jr.
2014-07-14 The I Ching, or Book of Changes, has been one of the two or three most influential books in the Chinese canon. It has been used by people on all levels of society, both as a method of divination and as a source of essential ideas about the nature of heaven, earth, and humankind. During the eleventh and twelfth centuries, Sung dynasty literati turned to it for guidance in their fundamental reworking of the classical traditions. This book explores how four leading thinkers--Su Shih, Shao Yung, Ch'eng I, and Chu Hsi--applied the I Ching to these projects. These four men used the Book of Changes in strikingly different ways. Yet each claimed to find in it a sure foundation for human values. Their work established not only new meanings for the text but also new models for governance and moral philosophy that would be debated throughout the next thousand years of Chinese intellectual history. By focusing on their uses of the I Ching, this study casts a unique light on the complex continuity-within-change and rich diversity of Sung culture. Originally published in 1990. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while
presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

I Ching in Plain English-
George Hulskramer 2012-04
The I Ching focuses on the belief that change is always possible, the only mistake in life is to be inflexible and not open to the opportunity of growth. It can be consulted about any situation where you desire to change an aspect of your life or your relationship with another. The I Ching seeks to make the most of any situation and to overcome the disharmony in a life. In I Ching In Plain English George Hulskramer has balanced several new translations of recently published versions of the I Ching to capture the essential spirit of this ancient classic. His translation opens up the meanings of the coins to a wider range of contemporary experience than is provided by Richard Wilhelm's traditional translation of 1923. The multiple meanings of each hexagram are condensed into two pages that combine Buddhist and Taoist interpretations with the Confucian translations used by Wilhelm. The traditional Confucian version of the I Ching, which dominates Richard Wilhelm's edition, emphasises correct behaviour and good manners while the Taoist and Buddhist schools, which flourished before Wilhelm's visit to China in the 1920's, stress inner development, how to make changes to the relationships you have with people around you and how to manage change in your life. George Hulskramer's synthesis of the differing versions of the I Ching makes this edition relevant for everyone interested in this ancient oracle. For centuries people have consulted the I Ching, allowing themselves to be guided by it in their choices and this new translation balances the different versions of the I Ching to make this ancient oracle work for anyone. George Hulskramer has also
condensed the commentary on each hexagram into two pages to allow quick and easy consultation for today's hectic world.

**Total I Ching** - Stephen Karcher 2009

The I Ching (pronounced ee-ching) is the oldest and most respected oracle or divinatory system in the world. There are currently two translations available which offer somewhat conflicting interpretations - the popular Confucian version and an earlier Taoist version called Zhouyi. Reconstructed by twentieth-century scholars and archaeologists, Zhouyi presents the highly imaginative world of myth and ritual that is the hidden base of thousands of years of Eastern thought. Now, for the first time ever, Stephen Karcher fuses these two traditions using modern scholarship and archaeological and linguistic research, along with a wide background in Eastern philosophy and comparative religion, and presents them to the modern Western reader in a comprehensive and accessible new form. TOTAL I CHING is a complete oracle with instruction for immediate use in all life situations, but is also the first translation to detail the mythology of the divinatory system, offering a revolutionary new approach to the world's oldest wisdom tradition.

**I Ching** - John Blofeld 1991

A translation of the early document of Chinese philosophy with explanatory notes

**I Ching Wisdom Volume Two** - Wu Wei 2010-04-20

This sequel to the popular I Ching Wisdom Volume One contains more of Wu Wei’s profound sayings drawn from the I Ching’s deepest wisdom. Wu Wei has added his enlightened comments to these sayings to help us apply the practical, timeless wisdom of the I Ching to our lives. The wisdom of the I Ching reveals the universal laws that govern us all, and I Ching Wisdom shows us how to live in harmony with those laws to live a life of peace, love, happiness, prosperity, and
success. The I Ching’s invaluable insights, says Wu Wei, help us steer a safer, clearer course through the uncharted journey of our lives, teach us to recognize and avoid the pitfalls that beset the path of the unenlightened, and show us how to “soar to the heights of success and good fortune.” Each saying is accompanied by a delightful Chinese ink drawing done in the Zen style by the author.

China Root - David Hinton
2020-09-29 A beautifully compelling and liberating guide to the original nature of Zen in ancient China by renowned author and translator David Hinton. Buddhism migrated from India to China in the first century C.E., and Ch’an (Japanese: Zen) is generally seen as China's most distinctive and enduring form of Buddhism. In China Root, however, David Hinton shows how Ch'an was in fact a Buddhist-influenced extension of Taoism, China's native system of spiritual philosophy. Unlike Indian Buddhism's abstract sensibility, Ch'an was grounded in an earthy and empirically-based vision. Exploring this vision, Hinton describes Ch'an as a kind of anti-Buddhism. A radical and wild practice aspiring to a deeply ecological liberation: the integration of individual consciousness with landscape and with a Cosmos seen as harmonious and alive. In China Root, Hinton describes this original form of Zen with his trademark clarity and elegance, each chapter exploring in enlightening ways a core Ch'an concept--such as meditation, mind, Buddha, awakening--as it was originally understood and practiced in ancient China. Finally, by examining a range of standard translations in the Appendix, Hinton reveals how this original understanding and practice of Ch'an/Zen is almost entirely missing in contemporary American Zen, because it was lost in Ch'an's migration from China through Japan and on to the West. Whether you practice Zen or not, taking this journey on the wings of Hinton's remarkable insight and powerful writing will transform how you understand yourself and the world.
The Taoist I Ching - Lui I-Ming 2005-05-03

The I Ching, or "Book of Change," is considered the oldest of the Chinese classics and has throughout history commanded unsurpassed prestige and popularity. Containing several layers of text and given numerous levels of interpretation, it has captured continuous attention for well over two thousand years. It has been considered a book of fundamental principles by philosophers, politicians, mystics, alchemists, yogins, diviners, sorcerers, and more recently by scientists and mathematicians. This first part of the present volume is the text of the I Ching proper—the sixty-four hexagrams plus sayings on the hexagrams and their lines—with the commentary composed by Liu I-ming, a Taoist adept, in 1796. The second part is Liu I-ming's commentary on the two sections added to the I Ching by earlier commentators, believed to be members of the original Confucian school; these two sections are known as the Overall Images and the Mixed Hexagrams. In total, the book illuminates the Taoist inner teachings as practiced in the School of Complete Reality. Well versed in Buddhism and Confucianism as well as Taoism, Liu I-ming intended his work to be read as a guide to comprehensive self-realization while living an ordinary life in the world. In his attempt to lift the veil of mystery from the esoteric language of the I Ching, he employs the terminology of psychology, sociology, history, myth, and religion. This commentary on the I Ching stands as a major contribution to the elucidation of Chinese spiritual genius.

The I Ching Or Book of Changes - 1983

The Living I Ching - Ming-Dao Deng 2013-07-02

From the author of 365 Tao and a leading authority on Taoist practice and philosophy comes a completely innovative translation of the classic text of Eastern wisdom, the I
Ching. The I Ching, or Book of Changes, is an ancient manual for divining the future. Its basic text is traditionally attributed to the Chinese King Wen, the Duke of Zhou, and the philosopher Confucius. By tossing coins, rolling dice, using a computer, or, more traditionally, counting yarrow stalks, one can create a seemingly random combination of heads or tails, odd or even, yin or yang, to construct six lines (for example, solid for odd numbers or broken for even numbers). These six lines make up a hexagram that provides advice, predictions, and answers to questions on topics from love and career to family and finance. While known mostly as a tool of divination, the I Ching is also a repository of centuries of wisdom. Most of the existing translations offer either dense, scholarly commentary or little more than fortune-cookie platitudes, but in The Living I Ching Deng Ming-Dao takes a more holistic approach. His new translation recovers the true wisdom and philosophy of this ancient classic, so that the I Ching becomes more than just a book of fortune-telling -- it becomes a manual for living.

Selected Letters of C.G. Jung, 1909-1961-C. G. Jung 2014-07-14 This one-volume edition allows the general reader to appreciate Jung's ideas and personality, as they reveal themselves in his comments to his colleagues and to those who approached him with genuine problems of their own, as well as in his communication with personal friends. The correspondence supplies a variety of insights into the genesis of Jung's theories and a running commentary on their development. Originally published in 1984. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the
rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

**I Ching**-Jade Li 2006-02-01
Spiral of Change While time is changing, one may ask, are we the actor or the task, winding destiny"s spring with our ceaseless acts. Jade Li

**I Ching**-John Minford 2014-10-30
A landmark new translation of the ancient Chinese oracle and book of wisdom Pose a question, then toss three coins (or cast your yarrow stalks) to access the time-honored wisdom of the I Ching. The I Ching, or Book of Change, has been consulted through the ages, in both China and the West, for answers to fundamental questions about the world and our place in it. The oldest extant book of divination, it dates back three thousand years to ancient shamanistic practices involving the ritual preparation of the shoulder bones of oxen. From this early form of communication with the other world, it has become the Chinese spiritual book par excellence. An influence on such cultural icons as Bob Dylan, John Cage, Merce Cunningham, Philip K. Dick, and Philip Pullman, the I Ching is turned to by millions around the world for insights on spiritual growth, business, medicine, genetics, game theory, strategic thinking, and leadership, and of course for the window it opens on China. This new translation, over a decade in the making, is informed by the latest archaeological discoveries and features a gorgeously rendered codex of divination signs—the I Ching’s sixty-four Tarot-like hexagrams. It captures the majesty and mystery of this legendary work and charts an illuminating path to self-knowledge. From the Hardcover edition.

**The Way of Chuang Tzu**-Zhuangzi 1969
